

# CARROT TOY PATTERN

[www.GoldenRippy.com](http://www.GoldenRippy.com)

Make sure this  
test square is  
1 inch

## Quick directions:

1. With right sides together, fold carrot in half and sew 1/4" seam allowance on long side.  
(use a short/tight stitch length)
2. Turn inside out and stuff with strips of cotton jersey or cotton fabric.  
(do not use poly stuffing or poly beads if this is for a child).
3. Fold raw edge of carrot inside by 1". Tuck the edges of leaves inside the carrot and stitch over the carrot to close.  
(you can pleat the top of the carrot for a cuter look)
4. Enjoy your little carrot! :)
