**Classic**

You're a classy seamstress. Fads don't hold sway over your fashion sense. Your closet is full of timeless pieces. Time for an update! Sew yourself a little black dress and invest in pearls.

**Trendy**

Others look to you when they want to know what's "IN" or not. You always know the latest trends. Invest in a good camera as you start documenting your fashion journey.

**Feminine**

You are the epitome of a girly girl. You embrace lace, ruffles and PINK! Girl Power! Have fun with your sewing and if you haven't already, time to branch out and make yourself a purse. Don't be afraid to try zippers too!

**Innovative & Daring**

You're not scared to take risks and you like a good challenge. You don't follow trends, you set them. Invest in a good seamripper on your way to glory!
